WILSON PROCLAMATION STARTS DRAFT MACHINERY

Slavs Capture 8564 Teutons In 24-Hour Onslaught

ASSESSMENT OF COUNTY RAISED \$12,332,660 BY SLEEPER

Valuation As Fixed By Assessor For the Year 1917 Reaches \$66,441,005

OIL WELLS CONTRIBUTE MUCH TO THE INCREASE

Board of Equalization Receives Books and Is Now Ready for Objections

1917 ASSESSMENT FIGURES
Non-operative property \$49,586,790
Operative property 6,147,635

Total (exclusive of railroads) \$66,441,005

1916 ASSESSMENT FIGURES
Non-operative property \$49,586,790
Operative property 4,521,555

Total (exclusive of railroads) \$54,108,345

INCREASE, 1916 TO 1917
Non-operative property \$10,706,580
Operative property 1,626,080

Total (exclusive of railroads) \$12,332,660

With by far the greatest increase in assessment ever made in a single year, County Assessor James Sleeper today turned over his 1917 assessment rolls to the board of equalization.

Of the increase of \$12,332,660, the largest portion is made upon oil wells property in the north end of the county. The increase is not merely on paper. It is for actual raises in valuation, and it represents actual development.

However, from various portions of the county come increases. Hundreds of acres of young trees have come into bearing and are now assessed. A raise was given orchard lands of the Irvine Company. Seal Beach, which has built up since March 1 of last year, shows a neat total in the new assessment books.

Of the present assessed valuation, \$66,441,005, there is \$60,293,370 available for taxation under the county rate, which can be cut twenty per cent from last year and still raise the same amount of money as last year. The operative property is banks and corporations of the kind that are taxed by the state. The county assessor assesses the valuation upon that property but it does not pay taxes to the county. There is over \$6,000,000 in operative class.

The railroads are not included in totals presented herewith, for the reason that the railroads all over the state are assessed for state purposes by the State Board of Equalization.

Fullerton Jumps
The rapid development of the Standard Oil Company property at Fullerton responsible for a goodly share of increase, and the oil wells skyward climb is responsible for the fact that Fullerton is now the highest assessed city in Orange County.

Last year Fullerton was assessed for \$4,278,705 and this year witnessed an advance of over 100 per cent. Today Fullerton's assessment is \$8,825,680.

The assessor has not yet totaled the figures for other municipalities of the county, but it is certain that Fullerton's total is greater than Santa Ana's.

More than Doubled
Assessment of Orange County is more than double what it was in 1916, the year before Sleeper was appointed assessor. By years' gradual climb of the county's valuation is told in the following:

1915	\$2,774,360
1916	32,463,330
1917	41,342,100
1918	44,838,205
1919	51,069,215
1920	51,950,355
1921	54,108,345
1922	66,441,005

TEA COMPANY CASHIER IS ROBBED OF \$20,000

CHICAGO, July 2.—Charles Bair, cashier of the National Tea Company, was today slugged by two auto bandits as he entered a bank to make a deposit, and was robbed of \$20,000.

Russ Drive Continues Guns Roar in Galicia

GENERAL BRUSILOFF, commander in chief of the Russian armies. For the first time since the old government was overthrown, the Russians are engaged in an offensive. The fighting is progressing in Galicia, where the Petrograd war office reports intense artillery activity.

Petrograd War Office Report Details Intense Artillery Fire in Progress

PETROGRAD, July 2.—Russia's offensive is now fully under way. In twenty-four hours of fighting, 8,564 prisoners have been taken. Today a great artillery preparation was roaring all along the Galician front.

The town of Korinkhy was captured, according to official war office statements. More prisoners are coming back of the lines hourly.

Here, in Petrograd, Minister of War Kerensky formally called on Premier Lvoff of the cabinet, to inform him that new Russia had begun to play her part with the allied armies.

Allied attaches here hailed the news joyfully, believing that the new Russian army, reinvigorated by its freedom and knowledge that it was fighting to keep that which had been won by the revolution, would give a splendid account of itself.

Gen. Brusiloff is driving again at the Galician city of Lemberg, in the same region where the Russian offensive of late last summer smashed through to Halicz. The front over which the fighting is now being pressed by the Russians totals about twenty-five miles.

SLAV ATTACK HELD ONLY BEGINNING OF DRIVE
WASHINGTON, July 2.—Russia's attack in Galicia is probably only the beginning of a general offensive.

The state department let it be known today that some weeks ago it had been advised that the organization of the Slav army was under way, and that a general attack against the Teutons would begin about July 1.

PETROGRAD, July 2.—Russia's first offensive under the new democratic regime was continuing vigorously today.

Artillery fire of great intensity was reported in the official war office statement in the direction of Zolchow and Brzezany (Galicia.)

Berlin official statements of Saturday gave the first hint of a resumption of fighting by the Russians on the Galician front of such magnitude as to suggest an under way, and that a general attack against the Teutons would begin about July 1.

DEATH TOLL IN NIAGARA RIVER CAR HORROR IS GROWING

40 Persons May Have Perished When Trolley Coach Dived Over Bank

NIAGARA FALLS, N. Y., July 2.—Forty persons may have lost their lives when the Gorge railroad car plunged over the embankment into the seething waters of the Niagara river. With the recovery from the river today of the body of Mrs. D. J. Coy, Kansas City, the total known dead was increased to eleven. Twenty-six persons were rescued, some seriously injured. Twenty-nine are still missing. The bodies of some may have been swept away in the swift current.

These figures are based on the latest tabulations of officials early this morning. All through the night and early today soldiers and police patrolled the river in search of victims of the car which plunged into the river at the edge of the whirlpool rapids Sunday afternoon.

Wash-Out Is Cause
It is believed the accident was caused by washing out of the roadbed by recent heavy rains. Three investigations were started today, one by the district attorney of Niagara county, another by the state public service commission and the third by the railroad.

Private Joseph Crowley of the Seventy-fourth regiment, who was on duty under the cantilever bridges when the accident occurred, said today: "I was watching the car at the time. I saw the trolley pole leave the wire and swing around in the air. Then the car just seemed to sink down in the earth. There was a scream and it just raised my hair on end. There was not a chance for the poor souls who were trapped there."

Bank Slides Out
"The whole bank slid out—went out just like sand. The trolley car screeched. I guess that must have been the brakes put on suddenly. It was a terrible sound. The bank kept going and in a second the trolley car was swaying on the tracks and the ties and there wasn't any earth beneath them. It all seemed to happen in a second."

"I don't know what happened next. I could hardly move. Women cried. I heard that. I saw heads and hats and arms out through the open sides of the car. Then the trolley car swung down off the tracks and the next I saw was the trucks up in the air and the car all smashed to bits and sliding in the water."

Waist deep in the treacherous current, Crowley stood for an hour holding tightly two young girls. One of the girls had fainted. The other was trying to cheer him on. Finally other men of the Seventy-fourth and the regulars of Fort Niagara reached him. The spot at which the tragedy occurred is about fifty feet south of the abutments of the cantilever bridge.

STATE AMONG LEADERS IN RECRUITING WEEK

SAN FRANCISCO, July 2.—Compilation of the figures on "Recruiting week" will show California well up among the leaders.

that they were later driven out after suffering heavy losses. This attack was along the Upper Stripa as far as the Narayuka river. Heavy artillery fire was reported extending as far as the middle Stochod river on one side and Stanislaus on the other.

The front which Russia has apparently selected for its offensive has not figured in the war news for nine or ten months. Then the autocratic regime staged a vigorous offensive there that was not halted until the German invasion of Rumania forced transfer of Russian troops to bolster up the ragged Rumanian lines.

This is the first general fighting along any part of the front that has been waged by Russian troops since the old government was overthrown.

BERLIN, July 2.—The loss of the village of Komukhy in the Russian offensive is admitted by Germans. The Russian offensive is assuming tremendous proportions.

HELP SITUATION IS EASY IN ALL COUNTIES BUT IMPERIAL

Council of Defense Receives Assurances of Sufficient Labor to Handle Crops

SACRAMENTO, July 2.—That with the exception of Imperial county, there is no shortage of farm labor at present, despite the fact that crops are being harvested in all parts of the state, is the report made to the State Council of Defense this afternoon. "The present supply of labor appears to be taking care of the demand pretty well," the report says. "Only one county, Imperial, reports acute labor shortage. There probably will be need for many workers in the fruit sections during the next month but growers hope to supply this from the schools and other sources."

LINER CHASED BY FOUR U-BOATS. SINKS ONE

AN ATLANTIC PORT, July 2.—How the liner "Akabo" sank one out of four German submarines in a running fight of six hours was told today by passengers on arrival of the steamer here. The big liner evaded all torpedoes as well as the gun fire of divers.

One of the Akabo's shots carried away the submarine periscope, and when another shot struck the U-boat there was a great explosion as the submarine sank.

The three remaining submarines pursued the ship until dawn, when patrol boats chased them off. The passengers also told of the torpedoing of the passenger liner Ansonia. The vessel was towed to port. There were no casualties.

SOUTH SEA ISLANDS FOR PHILIPPINES IS PROPOSED BY JAPAN

TOKIO, July 2.—That the proposal in parliament that Japan negotiate with the United States for exchange of the Philippines to Japan for the South Sea Islands seized from Germany will meet with the approval of America, is the belief here. Such a trade would remove many difficulties tending to cause friction between the two countries.

In discussing the Japanese policy in the Orient, it was said America is suspicious of the Mikado's attitude toward China.

Viscount Motone, in reply, said conditions showed a marked improvement.

CHINA IS PROCLAIMED UNDER MARTIAL LAW

WASHINGTON, July 2.—The Chinese monarchists have accomplished a coup d'etat, dislodging President Li Yuan Hung, according to state department information today.

PEKING, July 2.—Chang Hsiao, former emperor of China, deposed in the revolution which made China a republic, today announced his succession to the throne again, and assumption of the government. At Peking martial law throughout the empire was formally proclaimed. President Li Yuan Hung has been formally ordered to relinquish all authority.

LETTERS POINT TO SUICIDE OF GIRL

LOS ANGELES, July 2.—Letters believed to have been written by some broken-hearted girl intent upon suicide were found early today on a downtown street. A city-wide search for the "Vivian Hollman" signing the letters was unable to locate her.

Selection Of U. S. Armies To Be Made Within Few Weeks

WASHINGTON, July 2.—President Wilson today created and set into motion the gigantic machinery of the draft.

By a proclamation of regulation the President started the huge labor of singling out the manhood of the nation for America's armies.

The regulations fix the general classes of men free from military service, set up the exemption boards that sift out the men and define their duties.

Only a very small group of classes of men are exempt from bearing arms. All others must appear before the tribunals. Upon hearing of evidence, they will be discharged or drafted into the army as the case may be. Every action of the boards is hedged with double safeguards against unfairness and wide open to the public gaze.

The exact method of the lottery will strike the men of that number in every precinct in the nation.

Be Notified By Mail
These numbers and names will again be posted and published and the men called will be notified by mail.

To guard against any unfairness in the physical examination the President makes an ingenious provision. In case the physician designates any man unfit the board will call in another physician. He will make another examination in ignorance of the first report. If both make the same diagnosis a certificate of disqualification will be issued. Members of the board are barred from passing upon any relative's case.

After the physical examinations are finished the boards will take up the exemption of the classes specified in the rules.

A claim supported by affidavits must be made by men asking exemption. Claims upon occupational grounds must be made to the district board.

Two Affidavits Needed
In making a claim for exemption on the ground of a dependent, the claimant is mainly from the fruit of his labor income for the support of the dependent is mainly from the fruit of his labor and not derived from property. He must bring in another affidavit from the dependent affirming the dependency and another from a head of a family stating the same grounds.

Within three days after the affidavits are filed the local board must make its decision. Either an absolute, conditional or temporary discharge may be granted.

The local boards next report a list of men discharged and those not discharged to the district board. Again these names are posted and a notice sent to each.

Claims for exemption upon occupational grounds must be made to the district board within five days after the man is notified that he is drawn.

Double Proof Needed
The burden of a double proof rests upon these claimants. They must prove that the industry in which they are engaged is necessary and that they are "indispensable" to its successful conduct.

The regulations provide that claims may be made upon these premises: That he is actually engaged in a particular industrial or agricultural enterprise necessary to the maintenance of the military establishment for the national interest and that his continuance therein is necessary to the maintenance of that industry and cannot be dispensed with or replaced without substantial material loss and detriment of that enterprise.

Each claim must be supported by affidavits. When, in the opinion of the board, the loss of the man to the industry outweighs the gain to the military establishment, a certificate of discharge will be issued.

Dependents May Make Claims
Claims for exemption may be made by wives, parents, children, employers or any person for the man in whom they are interested.

The boards are empowered to investigate affidavits and claims for exemption with any means at their disposal. After the occupational claims are passed upon, the district board will next review the appeals from lower boards. Upon these appeals their decisions will be final.

Each number drawn

PLAN FAIR, PRESIDENT EXPLAINS IN FIAT

Regulations Drawn With a View to Needs of Whole Country, Says Executive

ADMONISHES BOARDS TO BE IMPARTIAL

Tribunals Called On to Adjudicate Sacred Rights of Individual, Is Word

WASHINGTON, July 2.—The draft system is one of equality and fairness, President Wilson explained today in a proclamation accompanying exemption and draft regulations, issued today.

His proclamation said: "The regulations which I am today causing to be promulgated, pursuant to the direction of the selective service law, covers the remaining steps of the plan for calling into service of the United States, qualified men from those who have registered; those selected was the result of this process to constitute with the regular army, the national guard and the navy, the fighting forces of the nation, all of which forces are under the terms of the law, placed in a position of equal right, dignity and responsibility with the members of all other military forces."

"The regulations have been drawn with a view to the needs and circumstances of the whole country and provide a system which it is expected will work the least inequality and personal hardships. Any system for selecting men for military service, whether voluntary or involuntary in its operation, necessarily selects some men to bear the burden of danger and sacrifice for the whole nation. The system here provided places all men of military age upon an even plane and then by selection which neither favors the one nor penalizes the other, calls out the requisite number for service."

"The successful operation of this law and these regulations depends necessarily upon the loyalty, patriotism and justice of the members of the boards to whom its operation is committed and I admonish every member of every local board and of each district board of review that their duty to their country requires an impartial and fearless performance of the delicate and difficult duties entrusted to them. They should remember as to each individual case presented to them that they are called upon to adjudicate the most sacred rights of the individual and to preserve untarnished the honor of the nation."

"Our armies at the front will be strengthened and sustained if they be composed of men free from any sense of injustice in their mode of selection, and they will be inspired to loftier efforts in behalf of a country in which the citizens called upon to perform high public functions perform them with justice, fearlessness and impartiality."

(Signed) "WOODROW WILSON."

FAUX PAS COMMITTED BY SWIMMING TEACHER

LOS ANGELES, July 2.—A man who could swim with grace and ease, despite the fact he was near-sighted, was teaching a lady to swim the single over-hand stroke in a crowded tank.

His pupil was apt and had advanced to the peculiar scissors stroke of the legs which is the secret of speed.

He turned away and then looked back to see his instructions were being ignored.

"For the love of Mike, woman, twine those long limbs of yours together at the finish," he shouted, and then he fell backward as he faced the indignant stare of a stranger.

(CONTINUED ON PAGE 2)

GIRL'S CHARGES HURLED AT J. J. TAVIS ARE DENIED

Serious Accusations Made
Against Salt Lake Agent
By Los Angeles Woman

In an alleged interview in a Los Angeles paper yesterday morning, Miss Metta A. Farias, alleged motion picture scenario writer, makes serious charges against Joe J. Tavis, popular local representative of the Salt Lake Route here. The charges are emphatically denied by Tavis, who asserts they are made in revenge for his action in instituting suit against the women for the recovery of an automobile purchased by her with money he advanced her for the purpose and with the understanding that she would deliver the car to him. She was arrested Friday, on a complaint charging her with the theft of an automobile.

In the printed interview, she says: "I have known him for about three years. He told me that a divorce from his wife was only a question of a few days and I believed him. As time went on and I pressed him for explanations concerning the fact that he never seemed to make any progress in his quest for divorce, he told me the case had been complicated by a petition by his wife for alimony. Finally I began to lose confidence in him and when it seemed to me that he did not really intend to marry me as he had

promised, I told him I was through with him.

"During my acquaintance with Mr. Tavis he induced me to trade my old automobile for a new one, and when he insisted, I accepted the money from him to pay the difference represented by the value of the two cars."

"There is absolutely nothing to her story," says Tavis. "Miss Farias is an old friend of the family. She formerly worked at Christopher's in Los Angeles. Her health broke down. She thought that if she could get out into the open air more she could recover her health, and out of pure sympathy for her, I assisted in the purchase of a machine. I did this with the full knowledge of my wife. Miss Farias was to pay me back as she could. There was eight or nine months ago, and she decided that she wanted a new machine, and had an advantageous trade offered her. She had a little money of her own in the old car. The cash difference between the old and new cars was \$100, and she consulted me with reference to the deal. We finally agreed that I should give her \$750, she to turn the new car over to me the day following its purchase. The difference in cash as between what I gave her and the \$100 she was to pay on the new machine was to be retained by her, part of which was repaid, payment of the amount she had invested in the old car. The balance I gave her outright so that she would have some capital to live on."

"When I issued the check, I went to M. Way of the First National Bank of Los Angeles and told him of the transaction and the purpose for which the check was issued."

"Instead of turning the car over to me the following morning as she agreed to do, she went on a trip to San Dimas, being accompanied by Joe Lobe, a Los Angeles newspaper man, Mrs. Jessie Lowe and a gentleman friend of the latter. Lobe went in his own machine."

"The party was gone a week, and upon their return last Friday Miss Farias was arrested."

"Learning that Miss Farias and Lobe were soon to leave for an extended tour through California in motion picture work, I called the woman to the phone and demanded that she deliver the car at once. She refused to do it. I then secured a lock and chain, located the car in the Golden State garage on Pico street, and locked the machine. While I went to an attorney's office to get out attachment papers she and Lobe fled the chain and went off on the mountain trip."

"There is absolutely nothing to the story of my matrimonial troubles. Mrs. Tavis and I have a happy home, and we are going to fight the case to a finish and vindicate myself of the charges she has hurled at me through the alleged interview."

"At no time have I ever conducted myself towards the woman other than as a friend trying to assist her in her financial distress and health conditions, and my wife has been fully cognizant of my every act in rendering the woman assistance."

"She took up the motion picture scenario work only a week or two weeks ago at the instance of Lobe."

Tavis has been residing in this city for several years, acting in the capacity of representative of the Salt Lake Route. He has the confidence and esteem of every one who knows him here.

MODERN PLUMBING IS THE MAGIC THAT KEEPS LIFE FROM GETTING TRAGIC

If there's one thing more than another that keeps life from becoming a tragic farce, it's up-to-date plumbing—the kind of plumbing we install in the homes of folks who realize that health and comfort and convenience are triplets, and that one sort of looks after the other.

MAKING OF PNEUMATIC FISH NEW INDUSTRY

SACRAMENTO, July 2.—California has a new industry—the manufacture of fish.

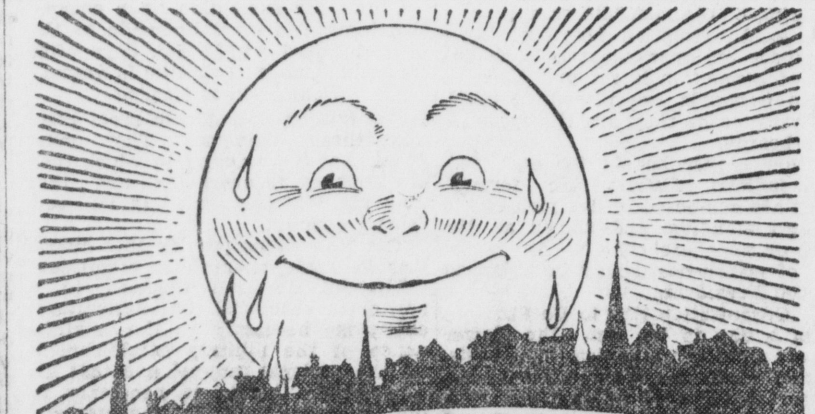

"These particular fish are of a size which would make Ike Walton green with envy; they swim and abound in the surf where they are being planted, along the beach resorts."

But they are not edible—at least no one has had any great success in eating them. They're pneumatic.

The Pneumatic Fish Company is producing them, having just filed its articles of incorporation and secured permission to issue the inventors of the fish, J. P. McCarty and R. P. Matzene, 247 shares of stock in return for their patents. The fish replace the old surf boards used by bathers at beach resorts.

ANGELENOS READY TO BUY WAR CAMP SITE

LOS ANGELES, July 2.—Financed by \$50,000 from the city and over \$100,000 in contributions from the county and from business men and commercial organizations, Los Angeles will buy the Centinela cantonment site for Uncle Sam's army, if the government will accept its proposition. This decision has been arrived at by the business interests and by the Los Angeles city council and board of supervisors. The price of the site is \$180,000.

BAND CONCERTS WILL START NIGHT OF JULY 4

Program of Patriotic Airs Has
Been Prepared By Conductor
W. Frank Harris

Elks' Santa Ana Band will open the summer concert at Brea Park Wednesday evening with a fine program of patriotic airs. The concert is being held on the night of the Fourth for the purpose of entertaining those of the citizens who will not be able to get away for the various beaches and other places where celebrations are to be held.

It is probable that after this week the concerts will be held on Friday instead of Wednesday evenings. The series of weekly concerts by the band will continue through the summer months.

W. Frank Harris, conductor, has arranged the following program, beginning at 8 o'clock:

- (1) March, "National Emblem"..... Bagley
- (2) Medley, "Memories of Stephen Foster"..... Holmes
- (3) Descriptive, "Fall of Jericho"..... Maillocheand
- Synopsis — Trumpets Assemble
- Army; Army Assembles; Exhortations of Priests; Choral Andante and Prayer; Attack; Falling of Walls; Triumphant March; Finale.
- (4) "Missouri" (Request)..... Logan-Eppel
- (5) Overture, "Princess of India"..... King
- (6) Finale, "Stars and Stripes Forever"..... Sousa
- "Star Spangled Banner"

RUSS GENERAL'S DEATH LAID TO TEUTON PLOT

Intrigues of Central Powers
Daily Reaching More Unbearable Limits

BY WILLIAM G. SHEPHERD
(United Press Staff Correspondent)
PETROGRAD, July 2.—Propaganda by the Central powers in Russia is daily reaching more unbearable limits. Assassination of the Russian General Nogin, was charged to German intrigue today. In scores of other instances the hand of German secret agents has been revealed, in the case of Nogin, and it became known that the Austrian general opposing him on the front had offered a prize of 15,000 roubles (roughly \$7500), for his life. Shortly after this General Nogin summoned two loyal companies and addressed them on his plans for an offensive. While he was speaking an explosive bullet struck him in the head. His funeral was held at Kharkov Wednesday. At Moscow a man with a strong German accent, had the effrontery to attempt street speeches urging the populace to make a separate peace with Germany. He was promptly arrested. A friend of the speaker followed the police, declaring:—In German:

"Citizens, in new Russia it is not parliamentary to interrupt speakers. You ought at least to give the Germans a hearing."

Both Germans were badly beaten by the crowd and the police before they arrived at the jail. They later were transferred to the prison.

Dispatches from Jassy, where the Rumanian government is now located, detailed the arrest there of a German wearing a Rumanian officer's uniform and carrying the credentials of a Rumanian general.

"The general" had been living on a special train, moving about and blocking traffic. Another German, bearing forged credentials, took control of a large section of railroads in that part

of Russia, directing the movements of the "general's" special train.

At Kieff an Austrian was arrested for addressing street crowds, urging a separate peace.

MUSIC TEACHER SINGS FOR L. A. PRISONERS

LOS ANGELES, July 2.—A voice thrilled through the exquisite stanzas of Cadman's "I Hear a Thrush at Eve."

Eager faces pressed against the iron bars.

A sigh broke the momentary silence which fell on the hearts of forty prisoners in the county jail. And then from men, young and old, who have spent dull days locked in jail cells and from the "trusties" grouped in a ragged circle in the hallway, came a furor of applause.

The little organ wheezed its prelude and again the rich baritone notes poured forth. This time it was "My Wild Irish Rose." There was a quiver of eagerness and then the men—tenors, basses, baritones and all—joined in the chorus:

"You may search everywhere, but none can compare, With my Wild Irish Rose."

The soloist and leader of the impromptu chorus was Walter Hastings Olney, Blanchard hall music teacher and director of the choir of the Hollywood First Baptist church.

"It pays richly—in the joy that comes when one tries to brighten the lives of these," was the comment. "I've been coming here more than two years and know many of these boys."

"What do I sing to them? Oh, popular songs—"Silver Threads Among the Gold," "My Wild Irish Rose"—they like the songs they know because they can join in the refrain.

"But they like the better class of music, too. Bruno Huhn's 'Inlets' with its dramatically achieved climax, 'I Am the Captain of My Soul' always wins a big hand. They like De Koven's setting of Kipling's 'Recessional' and Cadman's 'At Dawning' and 'I Hear a Thrush at Eve.'"

NEW STATE BUILDING PLANS SOON READY

SACRAMENTO, July 2.—Plans and specifications for the new million dollar state buildings to be erected in San Francisco will be ready for approval by the advisory board in about six weeks, according to State Architect McDougall. The state is anxious to begin the erection of the new buildings as soon as possible.

Plans also are being prepared for the state hospital in Southern California, for patients' cottages and administration buildings at the Norwalk state hospital, the two patients' buildings and pathological laboratory at Napa to cost \$90,000, the new bakery, laundry and patients' cottages at Mendocino, two buildings for patients at Agnew and work on the Humboldt State Normal School buildings, to cost \$230,000.

NO RIFLES FOR HOME GUARDS UNTIL AUGUST

SACRAMENTO, July 2.—Home guard companies need not expect to get any government arms until about the middle of August, Adjutant General J. J. Borree announces in reply to inquiries from county defense councils relative to arming home guard companies.

"Members of home guard companies are becoming discouraged because they are compelled to drill without rifles, although Congress recently passed a bill authorizing the arming of home guard companies," said General Borree.

Borree explains there has been a tremendous demand on the ordnance tremendous demand on the ordnance regular army and national guard. He says the arsenals are working under a terrible pressure trying to supply the demand, and adds that 2,000 members of the national guard are drilling without arms and equipment.

RUSS REVOLT SUCCESS RUINS BAY CITY CLUB

SAN FRANCISCO, July 2.—There is such a thing as a superfluity of success.

It is what has ruined the San Francisco Friends of the Russian Revolution Club.

Romanoff Czar Nicholas became Mr. N. Romanoff the club flourished with headquarters at Golden Gate avenue and Gough street, a library of 2000 volumes and a membership of 200. But the members were, for the most part, exiles driven from Russia under the autocratic rule of Czar Nicholas. Along came the revolution with which the club was friendly; the revolution succeeded and the exiles began to return home.

Today of the 200 members but two remain in San Francisco. Unable to maintain a club for themselves alone they have turned over the furniture and library of the club rooms to the Jack London Memorial Library and School of Social Science and the club is out of existence.

DELTA REGION FOUND FINE FOR FISHING

SAN FRANCISCO, July 2.—Because ten years ago the state planted quantities of blue-gill sunfish and calico bass in the Sacramento and San Joaquin rivers, fishermen this year are finding the delta region a fishing ground worthy of any sportsman's attention. Large catches are being made and the sporting fishermen declare the fish are quite as gamy as the trout of the high Sierras and many prefer them as a food fish.

L. A. MAN LOSES SENSE OF PRIVACY AT BEACH

LOS ANGELES, July 2.—You may gain weight and a coat of tan at a beach during the summer time, but you are in danger of losing your sense of privacy, Denter Devlin declares.

"I spent last Saturday in my home on Washington boulevard," he declares, "after having been at the beach for a week. I was rather surprised—along with passers-by—to find I had addressed out on the front porch without noticing what I was doing."

Greater Bargains Than Ever This Week SEBASTIAN'S BOOSTER SALE

STILL THE CENTER OF ATTRACTION FOR ECONOMICAL BUYERS

\$10,000.00 stock which is being offered in this sale consists of Shoes for every member of the family, ladies' Coats, Skirts, Dresses, Waists, Muslin and Knit Underwear, Hosiery, Ribbon, Laces, Notions, Men's and Boys' Pants and Overalls, Bed Comforts, Blankets, etc., men's and boys' Hats, Caps, Gloves, Ties and Furnishings.

Closing Out Our Entire Stock of Men's, Women's, Children's Shoes

People are fast finding out Sebastian's is the place to buy shoes. If you fail to come down here and take advantage of our sale you lose, that's all. This old time reliable house is closing out its entire stock of shoes at less than wholesale cost today. We have thousands of pairs for men, women and children at a fraction of their worth.

- \$6.50 MEN'S HEAVY CALF BOOTS, strictly water proof. Closing out at\$3.75
- \$2.00 LADIES' CANVAS SHOES, rubber soles and heels\$1.39

SUGAR SAVING IN JELLY MAKING TOLD

WASHINGTON, D. C., July 2.—Much waste of sugar and spoilage of jellies can be avoided by using a simple alcohol test recommended by the Bureau of Chemistry, United States Department of Agriculture. To determine how much sugar should be used with each kind of juice put a spoonful of juice in a glass and add to it one spoonful of 95 per cent grain alcohol, mixed by shaking the glass gently. Pour slowly from the glass, noting how the pectin the substance in fruits which makes them jelly—is precipitated. If the pectin is precipitated as one lump a cup of sugar may be used for each cup of juice; if in several lumps the proportion of sugar must be reduced to approximately three-fourths the amount of the juice. If the pectin is not in lumps but is merely precipitated, the sugar should be one-half or less the amount of juice. If the juice shows no precipitation under this test, it is unsuitable for jelly making and must be combined with apples or other juices rich in pectin.

STOP THAT SUMMER COUGH
We have coughs and grippiness in warm weather because colds are germ diseases. That's why we should have Dr. King's New Discovery handy. Its antiseptic ingredients fight the growth of germs and loosen their hold. Its laxative qualities expel these germs and cleanse the system. You can feel its pleasant balsams soothe the inflammation, heal tissues strained by coughing and promote rest and sleep. Millions of bottles sold. 50c, \$1.00 at your druggist's. Used for nearly 50 years.

For big, easy riding Franklin car to Long Beach the 4th, call 399M.

Like Buying Wheat at \$1.25

Buying a suit at our present prices can be compared to buying wheat when it sold at \$1.25 a bushel. Mind you, this is not a cry of "wolf," but a tip from those who are familiar with market conditions—who can see the effect on prices that huge government buying, combined with the tremendous shortage of wool, is bringing about.

POWER OF LOVE TO RULE UNIVERSE INSTEAD LAW AND GUNS

Judge Thomas Sees Beautiful Picture of Future Under Universal Brotherhood

"There will come a time when the hand of war will not be extended; when jails and prisons will be no more; when they will no longer crush and bruise the hearts of men; when national boundaries will be eliminated by the power of love; when instruments of war will not exist; when soldiers will be numbered among the world's workers, and when the world itself, from meridian to meridian and from equator to the poles, will be one grand universal brotherhood."

This beautiful picture of the future, as seen by Judge W. H. Thomas, closed his patriotic address at the First Methodist Church yesterday, in which he handled a trio of live subjects in his usual forceful way.

The services were largely attended, members of the G. A. R. and auxiliaries being present.

The gospel of good citizenship was enunciated in practically all of the churches of the city yesterday to large and prosperous congregations. From the pulpits came the powerful pleas that now, with the nation fighting on the side of righteousness and humanity, American ideals and patriotism should be instilled in the minds of the foreign born residents of the country.

In touching divorce matters Thomas arraigned judges who grant divorces on flimsy pretexts equally as severely as ministers who perform ceremonies where one or both of the principals have been relieved from marriage relations "by the surgery of divorce."

"Is it strange that the American home appears to be going to hell so fast that the scenery cannot be discerned on the way?" exclaimed the judge.

Loyalty to Our Country
"Loyalty to Our Country" was the subject of his discourse.

"In order to understand what loyalty to our country means," said he, "we must first learn the full import of the great commandment 'Love the Lord thy God with all thy heart, with all thy soul, and with all thy mind, and thy neighbor as thyself.' We cannot be loyal to our country and at the same time be false to God. Nor can we betray our neighbor and perform our full obligation to God. We must understand that our duty to our fellowman is a part of the obligation that we owe to God. We cannot be loyal on good terms with God while

we are not on speaking terms with our neighbor. We cannot serve God while we retain our place on the devil's payroll. When this lesson is learned we shall know something of what loyalty to our country means. It is founded on the same basis as loyalty to God, namely, practicing in our daily walk and conversation the principle for which Jesus Christ died."

Under the head of "Obstacles" preventing in many instances this absolute loyalty to God and country, he mentioned several, but dwelt mainly on intemperance, divorce and the war. In reference to the divorce question the judge said:

What Liquor Does

"Marriage is the legal union of a man and a woman for life, as husband and wife. Do you mean to tell me that any system is good which causes, directly or indirectly, more than 66 per cent of the divorce cases tried by myself since January 1, 1916? Since that time I have tried 187 divorce cases. Of these liquor was responsible in some degree in 125 cases, or 66 158-187 per cent of the total number tried. In five years—1910 to 1914, inclusive—a total number of 10,217 divorce cases were tried in five Southern California counties. On the basis of my own experience about 6,818 homes have been destroyed in this way because of the liquor traffic.

"Does the disruption of that many homes in a period of five years in so small a territory mean anything to you? Do these facts augur well for the perpetuity of this nation?"

"According to the special report made by this government in 1909, alcoholic drinks helped to break up 9,228 homes every year, or a total of 184,560 in the 20 years of 1887 to 1906. It will be noted, too, according to this safe report, that one in every three husbands divorced for cruelty was intemperate. Some may accuse me of being sensational. There is nothing sensational about this except the fact itself. I may be susceptible to the accusation that I have had something to do with 'turning on the light,' but under God I am not responsible for what that light reveals.

Judges, Ministers, Guilty

"When men and women—so many of them—give little thought or consideration to the most important relation of their lives; even when ministers of the gospel will perform the marriage ceremony for so many of them who have been divorced on other than the scriptural ground, without even asking a question; when persons have the audacity to go to the court for the dissolution of the relation 'by surgery of divorce' on flimsy, even absolutely frivolous, pretexts; and when judges have no more respect for their great office and give no more thought to matters then at hand to allow themselves and their office to be prostituted to the extent that thousands of divorces are granted by them annually with no more concern than if they were ordering the filing or recording of a chattel mortgage; when all this is so far manifest, is it strange that the American home appears to be going to hell so fast that the scenery cannot be discerned on the way?"

"Instead of performing the marriage ceremony for so many people who have been divorced on other than scriptural ground without even asking a question, let ministers of the gospel promptly and emphatically refuse all such services, and thus have the courage to place their influence on the side of the sacredness of marriage and the sanctity of its obligation. Let Christian fathers and mothers give serious thought to the matter of marriage on the part of their children and let them impart within the domestic circle the much-needed teaching of the Bible on the subject. Let there be an atmosphere in the Christian home and in the social lives of Christians everywhere which demands the recognition of the sacredness of marriage.

Should Christians Fight?

"Some people insist that a Christian should not fight. How about this? As I see it any man who says that our going into this war is un-Christian fails to grasp the full import of the love and teaching of the Master. In the teaching of Jesus there is a ringing challenge to take up the cause of humanity and defend it if need be with our lives. As I see it, too, if we and our allies win this war the Kingdom of God will be closer to its establishment at the close of this war than it has been since Jesus Christ taught in Palestine that such a kingdom was to be established. I believe, too, that this war has developed the travail pain of a universal democracy and a universal brotherhood, but before a universal democracy or a universal brotherhood can be born, we must remove the obstructions.

NURSE HAD POOR HEALTH

Suffered Much Pain, Yet Had to Work. Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Toledo, Ohio.—"I am a widow and go out nursing, and

a female trouble that caused a great deal of soreness across my back, and through my abdomen. Sometimes it would be very painful after a hard day's work. I read about Lydia E. Pinkham's Vegetable Compound and tried it and it has helped me wonderfully, so the soreness is all gone now. I believe Lydia E. Pinkham's Vegetable Compound is just the remedy for female troubles."—Mrs. ELIZABETH JOHN, R. F. D. No. 4, Toledo, Ohio.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today is regarded as the most successful remedy for female ills. There are thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., to prove this fact.

Five Acres Adjoining the City Limits OF Huntington Beach

Why not own a 5 acre ranch at Huntington Beach? The most even climate in America, where you can grow vegetables, fruits, berries, flowers, raise poultry and enjoy the climate every day in the year.

Cool Invigorating Summer Breezes

The temperature at Huntington Beach never goes above 85 and seldom over 80 degrees during the warmest summer days and in winter it ranges from 40 to 45 degrees. Huntington Beach is 10 degrees cooler in summer and 15 degrees warmer in winter than is Los Angeles only 30 miles north.

You can own 5 acres just outside the city limits of Huntington Beach close to both grammar and high schools, on good streets, only one mile from the surf, fine level garden soil for

COURT'S RULING ON DOUBLE TAX IS AWAITED

SACRAMENTO, July 2.—A supreme court decision is awaited anxiously by the State Board of Equalization to determine whether the board can exercise discretion under the statutes to exclude the gross receipts of corporations, particularly electric companies, from double taxation.

This question came up when L. E. W. Poida, tax agent of the gas and electric companies went before the equalization board and requested that the electric companies be exempted from double taxation by the state.

Poida put up the argument that the electrical companies buy electricity from each other and as each company must re-sell the "juice" at an advance to clear expenses and make a profit, the state in taxing the gross receipts of the companies, levies a double tax. For example, if company No. 1 sells "juice" to company No. 2 at two cents

per kilowatt, the two cents is taxed by the state, and if company No. 2 sells to company No. 3 at five cents, the five cents is taxed. Poida claims that this is double taxation as the two cents is taxed on the first sale of juice and again in the five cents sale, when, he claims, only the additional three cents should be taxed.

By doubly taxing the receipts of the companies, Poida holds, the companies are forced to raise the price of electricity and the consumer is suffering.

However, when Clyde B. Scavoy of the Board of Control asked Poida if action by the equalization board in eliminating the double tax would reduce the price of electricity to the consumer, Poida could not answer beyond stating that a change in rate would be up to the railroad commission.

The board members are of the opinion that double taxation is more a question of equity than of law but they are in doubt as to whether they can exercise equity in dealing with it.

The supreme court is considering a case in which the point at issue is involved and the board will await this decision before acting on the application of the electric companies to eliminate the double tax.

JAPAN WANTS U. S. TO BE 'BONE DRY'

BY RALPH H. TURNER
(United Press Staff Correspondent)
TOKIO, June 10.—(By Mail.)—Several millions of Japanese whose livelihood depends directly or indirectly on the tea industry, are today rooting for a "bone dry" America.

The connection between the tea fields of Nippon and the brass rail of the United States isn't as vague as it appears, for George F. Mitchell, supervising tea examiner of the United States Treasury Department, who in the Orient inspecting the tea industry, has made the statement that the big boom in America's tea consumption may be due to the spread of the prohibition wave.

In 1916, according to Mitchell, America drank 109,500,000 pounds of tea and is consuming more of the beverage every day. Tea from Japan is the most popular in America. Forty-two and two-tenths per cent of the tea America drinks comes from this country and Formosa. And over one pound of tea is drunk per capita in the United States, says Mitchell.

TUSTIN CLUB NOW IN 2ND POSITION

The Tustin nine played a game awfully from home yesterday, the first time in weeks. The club journeyed to Norwalk, where it trimmed the nine that city, 3 to 0, thereby landing second place in the Southern Star League.

Triangle Market

Be Good to Yourself

Think deliberately of the house you live in—your body—and don't forget that there is a direct connection between it and BREAD. Bread, to be healthgiving must be HOLSUM, made clean, kept clean and delivered clean. We have never kept, nor are we going to begin to keep inferior bread even though we might handle it with great profit. The best BREAD is none too good. We have it.

In this notice let us give a little talk on canned fish.

Just try our salmon on toast, salmon croquettes, salmon as a salad, salmon baked, cold salmon with a leaf of lettuce, codfish balls, codfish soup, codfish with mashed potatoes and white sauce, oyster soup, oysters on toast, roasted oysters, oyster patties, lobster cutlets, premium tuna, deviled tuna, lunch herring, kippered herring, Holland herring, sardines in mustard, sardines in tomato, spiced sardines, sardines in oil, minced clams, clam juice, clam bullion, fish flakes, shrimps and many others all made ready for the table. Remember, housewife, that with these foods you can make the greatest variety of culinary delights at easy cost, and in this way help make home a hallowed name.

Say, wives and daughters, the air rings with War. Men count themselves best fitted to be chief actors, but girls, if you have fighting propensities do not despair. The foe is at your very door multiplying so fast that while the breaking of dawn starts them off on the sea of life the evening shades find them grandfathers. We refer to the fly, and we would say that we have all the implements of warfare to aid you in a successful issue from the innocent looking piece of paper lying in a dish of water up to the ponderous trap that captures them by the thousand.

Gerrard Bros.

FULLERTON YIELD ON OIL DECLINES

FULLERTON, July 2.—Despite the fact that there is more drilling going on in the local field than there has been since 1913, the amount of oil produced now is the lowest noted in the entire year.

The year opened with the production at 47,450 barrels daily. The present output, according to latest figures, is 44,747 barrels daily, a decrease of 2700.

The decline comes at a time when development work is at the greatest height. At the opening of the year there were seventy-one wells drilling in the local field. At present seventy-seven strings of tools are running.

The year opened with 661 wells producing. At present the field has 676 wells producing.

"My Country 'Tis of Thee, Sweet Land of Liberty."

AN INVESTMENT

Someone in discussing advertising involved two sentences that may well be used as a foundation upon which any merchant should think out his advertising campaigns and the use of money for systematic advertising.

"Money that never comes back is expense."

"Money spent to get more money is investment."

In other words, a merchant in selecting a medium of getting his facts and figures before the public may spend that money without getting any results, or he may make his expenditure bring back more than was paid out.

Long experience in cities all over the country—and it has been proven beyond question right here in Santa Ana—has developed the basic principle that in a local field newspaper advertising in the right newspaper reaches more people at less cost per capita than any other medium. Readers of the Register are readers of its advertising columns, largely because our merchants have earned the right to have their advertisements read. Customers have found that our merchants are stable and straight-forward, and that they back up their advertising with performance has been shown to the satisfaction of doubters. Month after month and year after year the development of the confidence of the people of Orange County in the stores of Santa Ana has been made possible by the fact that Santa Ana's business firms are thoroughly reliable and far above the average in rendering efficient service to the public with which they deal. In extending its carrier routes and in building up and maintaining its superb circulation, the Register has demonstrated that money spent in the Register advertising is an investment, not an expense.

NURSES NEEDED

A big problem facing the Red Cross managers is the problem of getting enough nurses. The mistake of allowing untrained women to take places where their inexperience may be fatal to wounded men, and where their lack of discipline will assuredly make trouble in the running of hospitals, will be avoided if possible. Only trained nurses ought to be sent across the water.

But where is the supply to be found? Practically every trained nurse in the country is turning down calls because of overwork. Nearly every hospital is short-handed in its every branch. Many hospitals have not enough nurses nor enough servants for the cooking, cleaning and general housekeeping which must be done on a large scale.

The answer to these two problems—that of getting trained women in military hospitals, and of getting more nurses in hospital training—lies in the large numbers of young women just graduated from high schools and colleges. College women are especially desirable, for they are over twenty, with the habits of study and physical exercise, and with the sense of duty in taking care of themselves already established. If this army of young women would enlist in the hospital training schools of the country, they would release the upper class nurses who have had two or more years of training to serve the army. The nurse who has had two years of regular training—or even one—has learned the essentials of the drudgery, duties and discipline necessary to care for the sick.

The housekeeping of hospitals presents a field for the domestic science graduate. The hospital with the most up-to-date sterilizing apparatus and operating rooms should not have antiquated kitchen and laundry methods.

The immediate arena for many of the college women graduating this year lies in the nearest hospitals.

A Missouri inventor's anti-skidding device for automobiles includes legs to be carried on the hub of an automobile wheel that they can be projected to engage slippery roadways.

A sword and pistol have been combined by a Pennsylvania, in the barrel of the latter being within the blade and the firing mechanism being inside the guard.

CANNING LESSONS

Watch the use of sugar in jelly-making wherever possible, says to day's bulletin from the National Emergency Food Garden Commission which is co-operating with the Register in a nation-wide campaign to conserve the food of the nation and against waste. The commission will send free its canning or drying manual to any who enclose a two-cent stamp to pay postage.

Sugar is costly, continues the bulletin, and every housewife should use great care with it. In order to tell just how much sugar should be used with each kind of juice, place a teaspoonful of juice in a glass and add one spoonful of 95 per cent grain alcohol.

Shake the glass gently in order to mix, then pour slowly and watch how the pectin (that is the substance in fruits that makes them jelly) is precipitated. If the precipitation is in one lump, a cup of sugar may be used for each of juice. Should the precipitation be in several lumps the sugar should be three-fourths the amount of juice.

Should no precipitation be shown the juice is not adapted to jelly making and should be used with apple or juices rich in pectin.

Tasting the juice is a good idea because the housewife will find fruit not as acid as good tart apples do not make good jelly unless they are mixed with fruits which are acid.

hit with their countrymen.

Tests of Patriotism

It does not seem to me that the man able to write his check for millions was doing anything particularly patriotic in making a sound investment in Liberty bonds. He was doing a stroke of business.

The little fellow, financially speaking, who had to scrimp in order to get a bond or two, was different.

Donations to the Red Cross were on quite another plane. The donors "achieved merit," as the wise old Chinese in Kipling's Kim used to remark.

Getting a Job

By threatening to expose the past of a citizen who had erred, but paid the penalty and made amends, a fellow procured a job.

Such a threat ought to get any blackguard a job, with a fixed tenure, and a nice striped suit made and provided.

Running the War

Several gentlemen have indicated a willingness to take the job of running the war out of the President's hands.

Have listened for some expression of confidence in the gentlemen; haven't heard it.

TRENCH TALES

"I was just getting back to our old front line when a 9.2 burst very close," said a young French infantryman. "I saw the flash and woke up in a hospital, deaf and dumb, but without a scratch. I got my speech back more or less in three days, but as you see, I am still stammering a bit."

"I didn't see many prisoners, but I did see a German sergeant-major, only eighteen years old. He was a big, strong fellow. Some of the others were very weedy, but the Germans are all cunning and crafty in a dirty sort of way. They do things that we would never dream of doing, because we like to fight fair; but they can only play a dirty trick once. Some of their dodges get us wondering for a bit."

"Take the way they deal with raids. I've been on a lot. Sometimes you'll find their front line absolutely empty, and the next night still with them. They'll make their trench look deserted on purpose to draw you, and then they'll counter-attack heavily from further back."

"If cunning was everything in war, the Boches might have won it by now; but if guts and staying power were everything, there wouldn't be any Fritzies left alive."

TODAY'S WAR RECIPE

Barley Cakes

Three tablespoonfuls of barley flour, one teaspoonful of wheat flour, two teaspoonfuls of baking powder, one tablespoonful of honey, half a pint of milk, one egg, two tablespoonfuls of margarine. Melt the honey in the milk, which must be slightly warmed, beat up the egg and add it. Mix the dry ingredients together and rub in the fat. Then add the milk, egg and honey, and work into a dough. Roll out and cut into round cakes with the top of a tumbler or the lid of a small can. Bake in a medium oven.

Save the flour—flour is bread.

"My dear, this pie tastes just a bit stale—it must be yesterday's."

"Yes, it is," replied Mrs. Harderust. "And if you don't eat it today it will be tomorrow's!"

LAGUNA BEACH NEWS BUDGET

LAGUNA BEACH, July 2.—Word has been received in Laguna that Mr. and Mrs. Guy Rose, who expected to be here during July, August and September, will be unable to come till the end of July. They are now at their home in Pasadena, where Mr. Rose is quite ill.

Mr. Rose is a noted painter, and expected to conduct classes in Laguna during the three months. In the past, besides his private classes, Mr. Rose has taught the landscape classes of Miss Wheeler's school in Providence, as well as in France. He has also taught in Miss Down's school at Briarcliff, in Pratt Institute and in the Art Institute League of New York.

Many people have planned to be in Laguna, to take advantage of Mr. Rose's instruction, and will be disappointed to learn that he is too ill to begin work before August. Mr. and Mrs. Rose will occupy Miss Jane Adams' cottage at Arch Beach.

Mrs. Otis Jones of Los Angeles, has again opened here attractive beach home, "The Breakers," to roomers. Mrs. Jones is a delightful "hostess" and many people find their vacations doubly enjoyable for having spent them under her hospitable roof.

Mrs. Louisa J. Nelson and her daughter Jeannette, are among those who return again and again. They spent this week-end at "The Breakers." Accompanying them were Miss Joyce Langston, Mr. Paul J. Smith, and Mr. Alvin Wendt, all of Los Angeles.

Mr. Arthur S. Arrow Smith of London, England, was a guest last week. Mr. Smith is an inveterate traveller, having spent eighteen years wandering over the highways and the byways of the world, for the mere pleasure of it. He came to Laguna upon an English motorcycle, taking that means of travel over Southern California.

Mr. and Mrs. A. R. Adams of Los Angeles have been at "The Breakers" for more than a month. They intended building in Laguna this summer, but find it so pleasant where they are that they have decided to wait indefinitely. They will remain until October.

Another guest who will be at "The Breakers" all summer, is Miss Julia Raymond of Pasadena. Miss Raymond is an art teacher. She teaches in Pasadena during the winter months. During the two years of the Fair, Miss Raymond held classes in San Diego. She expects to have a class in Laguna this summer.

Mr. and Mrs. Dunn Van Gieson of Los Angeles entertained a party of friends at the Laguna Beach Hotel over the week end. Mr. Van Gieson is a banker of Los Angeles and his wife, before her marriage, was Miss Grace Mitchell, of Santa Ana. Mr. and Mrs. Jack A. Visel, Miss Ruth Geo, Miss Brenner, E. F. Chapman and H. B. Elson, all of Los Angeles, completed the group. Immediately after the Fourth this same party will move to Tahoe for a few days' visit. Later in the month they will return to Laguna for a short visit.

Mr. and Mrs. Frank Wheeler and family of Claremont, are occupying Prof. Fred Bacon's cottage on the bluff below Arch Beach.

Mr. Herries and Mr. Spencer, who have been camping for several weeks near Arch Beach, leave Monday for Los Angeles on business. They will motor by way of Riverside, where they will probably stop for several days before going on to the city. Mrs. Funke will leave at the same time for San Francisco. She will be gone two weeks.

Mr. and Mrs. George Webster came down Friday for a week's stay. They are from Altadena.

ORATORICAL TRAINING CAMP OPENED TODAY

CHAUTAUQUA, N. Y., July 2.—Educators and publicists went into training here today, whipping into shape their lungs and the speeches to be delivered in a nation-wide campaign of education on patriotism and the war under the direction of the committee on Patriotism Through Education. The training session will last a week.

FOREST REGIMENT RECRUITS SOUGHT

Their Work Will Be to Get Out Lumber and Ties In the Woods of France

The forest supervisor at Escondido has just received telegraphic advice from Washington that there is still available an opening for several men in the Forest Regiment. Particularly axmen, teamsters and cooks are wanted. This regiment will be a part of the American Engineers' Reserve Corps and its prompt recruiting will enable it to be one of the first to carry the U. S. flag in France.

All men desirous of being listed as an applicant for the Forest Regiment should communicate at once with the Forest Supervisor at Escondido, Cal., or the District Forester, 114 Sansome street, San Francisco, Cal.

The duty of this regiment will be to get out timber needed by the armies—railroad ties, trench timbers, mine props, bridge timbers, lumber and cordwood. The work will be performed behind the battle lines in France, but may fall within the danger zone.

The regiment will be made up of picked woodsmen. Service in it will give such men a chance to take the part in the war for which their life and training have peculiarly fitted them. For the logging crews skilled axmen, sawyers, the hewers, skidders, teamsters, and blacksmiths are wanted. Millwrights, sawyers, and engineers are needed to man portable sawmills which will form part of the equipment; helpers are required for the various activities connected with woods operations and the maintenance of large camps.

Recruits must be between the ages of 18 and 40 years, both inclusive, and must be citizens of the United States or have declared their intention to become such. They will be subject to the same physical examination as that required for other military service.

Enlistment will be for the period of the war.

The number of men to be recruited and their monthly salaries while in training and active service are as follows:

Six first sergeants, monthly pay in United States, \$51; monthly pay in foreign service, \$61.20.

Eighteen sergeants, first class, \$51 and \$61.20.

One sergeant bugler, \$48 and \$57.60.

Fifty sergeants, \$44 and \$52.80.

Six stable sergeants, \$44 and \$52.80.

Six supply sergeants, \$44 and \$52.80.

Six mess sergeants, \$44 and \$52.80.

Two color sergeants, \$44 and \$52.80.

Nineteen cooks, \$38 and \$45.60.

Six horseshoers, \$38 and \$45.60.

108 corporals, \$36 and \$43.20.

Six saddlers, \$36 and \$43.20.

Twenty-seven wagoners, \$36 and \$43.20.

156 privates, first class, \$33 and \$39.60.

558 privates, second class, \$30 and \$36.

Twelve buglers, \$30 and \$36.

Pay will begin at the date of enlistment. Traveling expenses will be furnished by the government from the place of enlistment to the training camp.

TUESDAY—WEDNESDAY

Kathryn Williams and

House Peters in

"The Highway of Hope"

A powerful story of the great west, by the famous playwright, Willard Mack. It is a smashing big story of the gold rush days when desert spots bloomed into towns over night—and withered between suns. Part of the action is placed in that great wilderness, Death Valley, which has won its ominous name because of the fact that it is uninhabitable at certain seasons of the year. In this production Miss Williams undergoes one of the most remarkable transformations that has ever been shown on the screen. She has struggled and fought with death itself for the gold which she finally wins. The tale is a gripping one, full of action into which has been breathed the spirit of the great out-of-doors. House Peters' work is of unusual excellence.

DOINGS OF CLUBS
PERSONALS

GOOD YEAR'S WORK

Ebell Holds Last Meeting For Year, Members Proud of Accomplishments

The last regular meeting of the Ebell Society for the season was held on Saturday afternoon at Elks' hall, with an unusually large attendance. The business part of the meeting was particularly interesting this time, for the annual reports told a more than usually satisfactory tale of work accomplished during the past year.

The report of Mrs. J. E. Gowen, the retiring curator, was notably enjoyable, and the club members feel very proud of the amount of solid work they have accomplished. The Economics sections, of which there are five, while the Los Angeles Ebell boasts none—have rather gone in for philanthropic work this year. The usual programs relative to household economic problems have been given, but besides this work, substantial aid has been given to the Salvation Army, Day Nursery and Red Cross.

The five Economics sections, together with the Young Ladies' Travel Section, have filled a gift box for the Red Cross, and have contributed the \$221 necessary for the purchase of material. The box will be shipped to its destination on Thursday.

The Travel sections have embraced a wide line of reading in their work, and have had several very pleasant social affairs. The French section is flourishing and in view of the present war situation, the work seems even more useful than it has before, and doubtless will grow in popularity.

The Book Review section has had many interesting meetings, at which many visitors have been in attendance. The Music section in one in which Ebell members feel a great deal of pride, for its ranks hold some musical talent of more than passing worth. An entertainment at the county hospital for the inmates there, another at the Congregational church when the blind of the city were honored guests, a program of Japanese and Chinese music by Miss C. E. Dresser was a unique and interesting feature.

The Day Nursery report given by Mrs. E. M. Nealey was most encouraging. Day Nursery teas, which proved very popular, poured an astonishing number of dimes into the treasury, and other sources of income have been unusually fruitful, so that the institution is in a very satisfactory financial condition.

In connection with the Red Cross, the Ebell members will this year work straight on through the summer. Ten sections have been formed, each with a membership of from 25 to 29, and a leader for each assigned. Each section will give three days' work during

Here is an appetizing way to use that meat left from yesterday's roast, Madame Housewife. It is suggested by the U. S. Department of Agriculture.

Meat Pie
Cut meat into fairly small pieces. Stew in sauce-pan with a little water, left-over gravy or soup, salt to taste, and such seasonings as onions and celery. If desired, thicken liquid with flour. Line baking dish with biscuit dough, pour in the meat filling, cover with biscuit dough and bake in a medium oven.

If the quantity of meat is small, a little macaroni or diced potato may be added.

Such pies to be at their best must be well seasoned.

the summer months, or a total of thirty days, which, counting the membership of the club, is the equivalent of one person's work for something more than years.

The leaders for the sections were appointed as follows: Mmes. E. M. Nealey, Ella Harris, George Dobson, Ella Campan, A. B. Spear, P. A. Robinson, J. E. Liebig, W. J. Stewart, H. O. Eggen and E. T. Batten.

In a little talk that bespoke the sincere appreciation of Ebell members for Mrs. Crose and the affection with which they have come to regard her, and as a concrete token of their friendship, she was presented with a silver coffee pot. Mrs. Crose gracefully responded and ended by introducing Mrs. W. L. Grubb, the incoming president, who gave a few words of greeting. The other officers were then introduced.

The program given by Mrs. Holmes Bishop was immensely enjoyed, as were the clever pianologues by Mrs. Walter Overell of Los Angeles.

An informal reception followed adjournment, and over cooling punch and wafers, the members visited happily for an hour, with animated discussion of vacation plans, in which Red Cross work is this year to figure largely.

REUNION AT BALBOA

Graduates of Class 1910 At Los Angeles Normal Spend Day Together

Misses Ethel Wright, Margaret Gallup, Agnes Christianson, Gladys Riley and Mrs. Mary Emerson of Butte Falls, Oregon, who graduated together in the 1910 class of the Los Angeles Normal school, went to Balboa Saturday to have a reunion.

A bounteous luncheon was enjoyed at noon and a delightful boat ride on the bay enjoyed, besides the happy time spent in reminiscences of their school days.

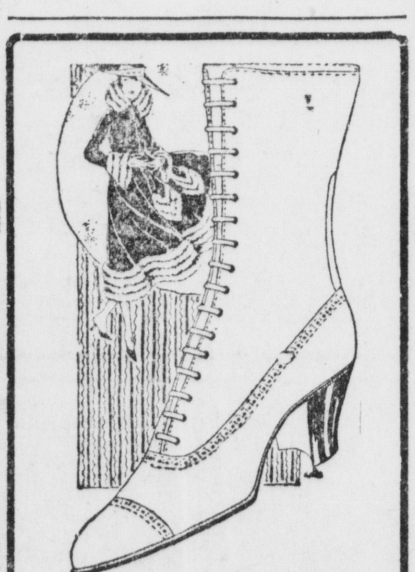

To Teach in Naval Academy
Carson Smith, a graduate of the Santa Ana high school, and also of Occidental college, left Saturday for San Diego, where he has been appointed to instruct classes in mathematics and science in the San Diego Army and Navy Academy. Smith expects to be gone until August 2, when the summer session for that school closes.

FOR FOURTH BIRTHDAY

Little Miss Florence Turner Celebrates Birthday on the Spacious Lawn Saturday

Winsome Little Miss Florence Turner, daughter of Mr. and Mrs. J. Howard Turner, celebrated the fourth anniversary of her birth Saturday on the spacious lawn at the home of Mr. and Mrs. G. A. Edgar, which had been offered for the occasion.

Mrs. Turner kept the sixteen little folks highly amused during the pleasant afternoon with various games and the little hostess was delighted with many pretty gifts.

For the refreshments, tables were set on the velvety grass and decorated with red, white and blue and each little person was presented with a gay little windmill as a souvenir.

Church of Christ Meeting

There is to be a meeting at the Church of Christ, corner of Walnut and Broadway, each evening this week, and on the Fourth of July there will be three services with basket dinner on the premises. The services will be conducted by Evangelist Ernest C. Love, who has held several meetings and debates in this place, and those who have heard him before may now avail themselves of the opportunity of hearing him again.

To Make Official Visit

Gen. Fred J. Walters of Vallejo is making his official visit to Santa Ana Canton, I. O. O. F. Tonight there will be a public meeting, to be followed by dancing.

Prof. Kading at West End

The patrons of the West End Theater will be given a treat tomorrow and Wednesday evenings, when Prof. Ludwig Kading will render two beautiful violin numbers, "Souvenir" by D'Arda, and Northern Song by Rogers.

Prof. Kading has been with the Conservatory of Music at Long Beach for eleven years and has come to Santa Ana with his interesting family to reside.

Remodel Laguna Beach Cottage

The Spurgeon cottage on the water front has undergone a remarkable change during the past few weeks. It has been completely remodelled both inside and out, and when Mrs. Bisby gets through making changes it is going to be a mighty attractive place. Mr. and Mrs. Bisby will be here quite a bit of the time during the summer and what time they are not here the cottage will be occupied by friends or relatives.

Mr. Bisby is too busy boosting Santa Ana to be here all summer, but will spend as many days as the seashore as business will permit.—Laguna Life.

Business Meeting

The Woman's Missionary Society of the Spurgeon Memorial M. E. Church, South, will hold its regular monthly business meeting on Tuesday, July 3, at 2:30 p. m., in the church parlors.

Interesting Engagement Announced

The engagement of Marshall Great-house of this city and Miss Marie Harris of Pomona has recently been announced. The young man in the romance graduated from Pomona College this year and is connected as quartermaster with one of the United States submarine chasers in the mosquito fleet, expecting to be called to the service at any time. He is now in Coffeyville, Kansas, on business.

Miss Harris is planning to go to Santa Barbara Normal to take a course in the domestic science and art departments.

To Entertain Commandery

The officers of Hermosa Chapter of the Eastern Star, have planned a very pleasant social time for this evening, when the Star will have as special guests, the members of the Commandery and their wives. All members are urged to be present and enjoy the evening.

Minnesota Picnic

The Minnesota picnic will be held at Orange County Park Wednesday, July 4, and all former Minnesotans are cordially invited.

The Food Pledge of California

An appeal is made to the women of Orange county, by the Women's committee of the County Council of Defense to register for food conservation. Registration blanks have been received from the State committee and headquarters established at the Santa Ana Produce store, 311 North Main street, Santa Ana.

Bulletins on canning, preserving and drying fruits and vegetables will be on file and accessible to all women who wish such information. Bring paper and pencil in order to make copy of needed recipes. Some member of the committee will be in attendance daily, except Sundays, from 10 a. m. until 4:30 p. m.

Newport Beach Cross

The Newport Beach chapter of the Red Cross will meet at the home of Mrs. A. B. Rousselet at East Newport on Tuesday afternoon, July 3, from 2 to 5.

Hourly service to Newport and Balboa via Crown Stage, from 7 a. m. to 6 p. m. July 4th 30 minute service, last car leaving Balboa 11 p. m.

For big, easy riding Franklin car to Long Beach the 4th, call 399M.

I WANT TO REPAIR THAT WATCH

AUTO DEALERS FORM A COUNTY ASSOCIATION

With sixty men present representing practically every branch of the automobile business in Orange county, the Orange County Automobile Trade Association was organized Saturday night at a meeting and banquet at Odd Fellows' hall. There was splendid enthusiasm for the organization. The Cherry Blossom catered.

Secretary Martland of the State association delivered an address that was full of fine sentiment in the line of co-operation and greater harmony among men engaged in the same line of business.

Representatives of jobbers of Los Angeles, made short addresses. They were W. R. Hyde, of Weinstock-Nichols Company; Lee Garraway, Chansler & Lyon; J. H. Ernst, manager Featherstone's; F. J. Berhle, of the Waterhouse & Lester Company.

J. F. Brown, manager of the Western Rubber and Supply Company, presided.

Another meeting will be held at Anaheim Friday evening, at which it is expected the membership will be extended. It is hoped to eventually have every man identified with the automobile business in the county a member of the association.

President, Sec. A. Davis, Santa Ana

President, Sec. A. Davis, Santa Ana; first vice president, W. E. Winterrowd, Orange; second vice president, William J. Wickensheim, Fullerton; secretary-treasurer, I. W. Stewart.

The county body will affiliate with the state organization.

NOTICE, BUSINESS MEN

The Fourth of July is one of the regular closing days of the M. and M. Association, and the association recommends that all business houses be closed for the day.

J. C. METZGAR, Sec'y.

THE MACCABEES ATTENTION

The Sir Knights will entertain the Lady Maccabees at the new Redman Hall, corner Fourth and Birch Sts., this evening. Your presence is urgently requested.

THESE WARM DAYS, BE CAREFUL IN FOOTHILLS ABOUT STARTING FIRE

Special warnings have been sent out to campers by Forest Supervisor Sloan of Escondido and Forest Ranger Stephenson of El Toro, calling attention to the necessity of special care against starting fires during the present warm spell. The forest officials have advice from the weather bureau that the period of dry weather may last several days. Throughout the summer, campers should see that their camp fires are out before they leave camp. Cigar and cigarette stubs should be thrown in the bottom of the vehicle, not beside the road.

WOMAN THOUGHT INSANE WANDERS UPON STREETS

A woman whose identity has not been established was found wandering upon the street at Fullerton, and she was arrested upon the suspicion that she was insane. Though she gave several names as her own, the one that she often repeated was Mrs. Bessie Jewell. She said she lived at Ventura, Los Angeles and Norwalk. She is a slight woman, aged 40 or 45.

BURGLAR MAKES TWO CALLS, STEALS CLOCK

A determined burglar entered the home of Miss Ida Mitchell, 402 Vance street Saturday night and stole an onyx clock. This is about all that is missing.

The thief appeared at the house twice during the evening, but it is not known when or how he entered.

Miss Catherine Cubbon, who resides at 902 French, and about opposite the Mitchell home, saw the man tip-toeing around under the windows of the Mitchell home about 9 o'clock in the evening and again about 10 o'clock. The last time she called the officers and Dean and Pond investigated. The man had disappeared. Sunday Miss Mitchell found the back door of her home open and the clock gone.

Dr. Robertson has returned from the East and resumed practice.

A frame that will hold a heavy can of oil and permit it to be tipped for pouring has been invented to prevent waste.

Huge piles of refuse around iron and coal mines in Scotland, regarded for years as worthless, are being utilized for the manufacture of bricks.

GIRLS WORK BY THOUSANDS IN CLYDE RIVER SHIP PLANTS

How Scots Are Waging Battle On Diver Menace Told By Mellett

(NOTE.—The second of the series of three stories by Lowell Mellett on war conditions in Scotland follows. The third and concluding letter will follow shortly.)

BY LOWELL MELLETT
(United Press Staff Correspondent)
GLASGOW, May 24 (by mail).—A day on the Clyde helps explain Lloyd George's confidence, that the submarine menace will be beaten.

A snare-drum roar from thousands of steam riveters and a battlefield drumfire of crashing hydraulic hammers; unending miles of wooden and steel scaffolding with workmen swarming over them like flies; towering cranes that look capable of lifting a county courthouse and setting it down in the next county; these are some of the reasons.

Girls—thousands and thousands of transvested girls—furnish so many additional reasons. And then there are certain reasons visible to the eye concerning which secrecy is imposed. They constitute a method of direct warfare against submarines and are already proving their effectiveness, but more than that cannot be told.

Immense Ship Plants
The Clyde was the greatest ship-building center in the world before the war began. Now it dwarfs its own activities of three years ago. For twenty-two miles on one side of the river immense plants crowd against one another; the same is true for half the distance on the other side of the river. Soon it will be the whole distance on both sides.

The world's biggest fighting craft went down the ways here a few days ago, but work stopped many months ago on what was to be the world's biggest merchant ship. Instead smaller ships and more of them are being built. Rows on rows of skeletons, some bare, some partly dressed in their armorplate show how the new

policy of building standardized ships is being carried out. Builders report it means a forty per cent gain in speed of construction.

"Unless the destructiveness of the German submarines is greatly increased, the extension of British ship building will practically take care of the situation by autumn," said Fred Loomitz, munitions director for Scotland. "This does not take into account the huge preparations under way in America."

Keen Perception
More than one shipbuilder along the river displayed a keen perception of the probable acceleration of America's output.

The fact that they are compelled to rely upon women and girls for an immense proportion of their labor has ceased to be considered a handicap, the shipbuilders say. Aside from such work as calls for sheer muscle, they declare, the women are completely qualified as proved by the fact that they are averaging a larger output per person than men in the same work averaged—before the war. The same increase in output since the war began, of course, has been shown by the men.

Women are used chiefly where automatic devices take the heavy lift off their hands.

Thus feminine hands are seen turning out fifteen inch shells practically without masculine assistance, doing the bulk of the work on the famous British tanks, gun carriages and, naturally, on aeroplanes and airships.

The very excellence of their workmanship makes certain the problem of adjusting labor conditions after the war will be a big one. "Just now they are giving thought to one thing only," said Loomitz, "and that is the winning of the war."

STRAINS, SPRAINS, STIFF JOINTS
You can almost feel Sloan's Liniment penetrate the sore spots, draw inflammation from that wretched knee or ankle, and soothe your bruised, aching muscles. Sloan's Liniment is more quickly effective, clearer and easier to apply than plasters or ointments. It neither clogs the pores nor stains the skin, and needs no rubbing. Get a bottle now for aches of rheumatism, neuralgia, lumbago, as well as all external pains. At your druggist's, 25c, 50c and \$1.00.

POLICE CAT IN L. A. ANSWERS PHONE CALLS

LOS ANGELES, July 2.—Chief of Police Butler has a cat with a higher education. He claims he has taught it to talk over a telephone, answer door bells and usher visitors into a room with befitting dignity. "The brute is so proud of her accomplishments," says the Chief, "that it is impossible to keep her away from the mouth of the phone when a call comes in. Also, if I plug the phone bell with paper, so it won't ring, she will remove the plug as soon as she notices it."

AVERAGE WOMAN HAS NO CHANCE OF BECOMING WAR NURSE

Graduate Trained Nurses Only Chosen By Red Cross For Hospital Service

FACTS AS TO WAR NURSING SET FORTH

One graduate nurse to every 200 soldiers is required.

About 5 per cent of any army is sick or wounded all the time.

In a war hospital there is usually one nurse for every ten patients.

An American Red Cross nurse in war service receives \$50 per month.

The personnel of a base hospital unit is 50 active and 15 reserve nurses and 25 active and 25 reserve nurses' aids; proportionately smaller numbers for the navy detachments, with the emergency groups consisting of small reserves easily mobilized and available either for army or navy hospitals.

WASHINGTON, July 2.—For the average American woman who wants to help her country in this war by going to the front as nurse there is no hope of her ever realizing her wish.

Only graduate nurses are chosen by the American Red Cross for war hospital service. And nurses' aids are also specially trained and chosen with extreme care.

In previous wars, women were not infrequently seen on the battle field. In war today they never get any closer to the front than the base hospital, which generally is out of sound of the cannoning. The machine gun and the barrage of modern warfare has forced the retirement of women into safer fields.

For the first time in the country's history the United States is sending to the front a modern hospital equipment. Uncle Sam's sick and wounded in France will receive as good care as they could get in any hospital in the United States. The best surgeons and the best nurses in the country are going with the troops.

When the American Red Cross was organized in 1905 the principle was adopted that not merely trained nurses but nurses of character and experience vouched for by recognized hospitals could be enrolled in the Red Cross service.

She receives only \$50 per month while in service. Her hours of work at the base hospital are irregular but mostly long.

General Pershing's contingent probably will be served by army nurses who were on the Mexican border.

LIQUOR ADS IN MAILS BARRED BY NEW ACT

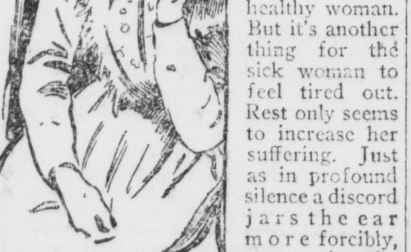

WASHINGTON, July 2.—Liquor advertising or liquor soliciting by letter, postal card, circular, newspaper or publication of any kind are now barred from the mails by "Act of Congress" when addressed to anyone in dry territory.

Anyone "knowingly" sending a liquor ad in violation of this Act of Congress, whether publisher of a

TIRED OUT.

There's many a housewife who sits on the porch in the growing shadows of a summer evening, knowing to the full what it is to feel tired out; as if there was not another ounce of effort left in her. But she knows how sound her slumber will be and how refreshed the morning will find her. That's the tiredness of a healthy woman. But it's another thing for the sick woman to feel tired out. Rest only seems to increase her suffering. Just as in profound silence a discord jars the ear more forcibly, so now that she has stopped moving about, this tired woman feels more acutely the aching back and throbbing nerves.

Sick women, thousands of them right here in California, have been made well by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, heals inflammation and ulceration.

Los Angeles, Cal.—"After being seriously ill for some time, with no relief from any doctor or their medicines, in desperation I tried Dr. Pierce's Favorite Prescription, and was soon restored to health and happiness. I also recommend the 'Lotion Tablets' to all women suffering with diseases peculiar to their sex. Long live Dr. Pierce and his never-failing remedies. "I write this with pleasure and gratitude."—Mrs. THERESA SILVER, 232 1/2 South Grand Ave.

newspaper or his agent or any liquor dealer or his agent, is liable to \$1,000 fine and imprisonment for 6 months. For any subsequent offense a year's imprisonment may be imposed.

Newspapers and magazine readers in dry territory are likely to receive their papers "censored" of liquor ads by the liberal use of shears on the part of news dealers. This practice is already in effect in Georgia.

Not only states which are completely dry but dry counties, towns and even wards in subdivisions of any state or city otherwise "wet" are closed to liquor advertising or soliciting by mail.

SUPPLEMENTAL TEXT BOOK ISSUANCE HALTS

SACRAMENTO, July 2.—The rapidly developing industry of state normal schools in issuing bulletins or supplemental text books which they sell at cost to the students and teachers of different communities for use as supplemental texts has been squelched through an opinion rendered the State Board of Control by Attorney-General U. S. Webb.

Webb holds that the normal schools cannot issue and distribute these bulletins which have taken the form of text books, as the law provides that the issuance of text books is controlled by the State Board of Education.

According to Clyde L. Seavey of the State Board of Control, the normal schools began the issuance of these bulletins for the sole use of the children and student teachers—in the schools. In time the books were elaborated upon and they became text books and were put into use as supplemental texts in many counties. The bulletins were printed at the state printery and sold to teachers and students at cost.

This practice was discovered by the Board of Control and, believing it illegal, an opinion was asked of Attorney-General Webb. The practice now will be stopped.

U. S. SHIP DEMAND BOOMS BUSINESS

SACRAMENTO, July 2.—The demand of the United States government for merchant ships in which to send supplies to the allies is having a wonderful industrial effect on California, judging from the number of applications that are being received by the State Commissioner of Corporations H. L. Carnahan from newly organized ship-building companies, for permits to sell stock.

In nearly every city in the state where there is a port, ship-building is becoming the big industry, says Carnahan. Two and three applications from new companies are received daily, he says.

Most of the companies are planning to build the cheaper and more quickly-constructed wooden ships, the reason being that lumber is plentiful in the state and much easier to obtain than steel.

Carnahan has issued a permit to the Craig Shipbuilding Company of Long Beach to sell 5,000 shares of capital stock at \$100 per share. The Craig company has been awarded a contract by the government to build a number of ships immediately.

A permit also has been issued to the Benicia Shipbuilding corporation of Benicia to sell 2,000 shares of stock at \$100 per share. The company plans to secure a site for its plant on San Francisco bay.

'SAMMY' TO STICK AS U. S. SOLDIERS' NAME

LONDON, July 2.—"Sammy" is going to stick as the nickname of the American soldier in France. The former "dough boys" like the sound of it themselves, and by a curious coincidence, after the men aboard transports had picked it on the way over, the French populace at the port where they landed, greeted them with the same nickname.

The London Times today printed a long story about elaborate deliberations on the transports in which the regulars chose their name. It was agreed, the Times asserted, that "Sammy" was the only name worthy to rank with "Tommy" for the British and "Poin" for the French.

London newspapers today devoted columns to picturesque stories from the French port where the Sammys are now quartered.

MAYOR OF L. A. PLAYS IN ROLE OF CUPID

LOS ANGELES, July 2.—Mayor Woodman is looking for a refined elderly gentleman of good habits with "enough money to take care of a wife."

When he finds a man fitting those specifications he will make him acquainted with a lady who is worthy, refined, and of good standing.

Object—matrimony, of course.

The refined lady has written to Mayor Woodman, appealing to him to find her a husband. And the mayor, always accommodating and chivalrous, is engaged in the quest. That he is in earnest is shown by the fact that he refuses to show known the name of the woman and demands the right to pass on the qualifications of the applicant.

DUSTER 'ATTACKED' BY OLD INDIAN FIGHTER

LOS ANGELES, July 2.—"Dad" Halworth, veteran of numerous Indian wars, awoke from his mid-afternoon nap.

Proceeding from the wood box was a feather duster. "Geronimo's headgear," cried "Dad." "Bang, bang," rang out a fusillade as "Dad" grabbed his trusty rifle—companion of other conflicts.

The duster is a total loss.

Nearest Beach to Brea Canyon is Huntington Beach

Soldiers of the Commissary

Of more importance possibly than even the "soldier at the front" is the soldier of the commissary who must feed her family economically as well as nourishingly and thus conserve the food supply for the armies.

Food that supplies the most nourishment at the lowest cost and at the same time is palatable and appetizing, is the economical way.

Bread, biscuit and other bakestuffs made with

is most economical and nourishing.

Baking at home is made easy with such a flour as this.

Get out your bread board, your flour sifter, your rolling pin and be a captain in the "Soldiers of the Commissary."

Let "Household Helps" Help You

Nearly forty thousand women in California and the Southwest find much help in our little publication, which is issued every two months, free to anyone sending in the coupon. Filled with recipes contributed by our readers, and there are many suggestions along household and economic lines.

Nine cash prizes are awarded each issue, first prize being \$10.00. Your recipe might win a prize, and at all events you would enjoy Household Helps. Mail the coupon today to

GLOBE MILLS—LOS ANGELES.

SACRAMENTO IS SELECTED FOR 1918 C. E.

Miss Lula Minter Is Again Elected Corresponding Secretary

RIVERSIDE, July 2.—Sacramento was selected as the 1918 convention city for the California Christian Endeavor Union after the hottest battle ever waged in a state convention.

Harry C. Allan of San Francisco, general secretary for the past year, was elected president, succeeding Howard T. Brown of Los Angeles, retiring president. Clyde Doyle of Long Beach was elected general secretary. Other officers were elected as follows:

First vice president, Charles E. Culver, Los Angeles; second vice president, Andrew R. Schoutky, Merced; corresponding secretary, Miss Lula M. Minter, Santa Ana; financial secretary, C. Harlie Power, San Rafael. Superintendents—Mildred Lothamer, Sacramento, intermediate; Anna Shields, San Jose, junior; Edith McDonald, San Francisco, Quiet Hour; Erna Wyatt, Winters, Tenth Legion; Mabel Culter, El Modena, missionary; Chester Rutledge, Dinuba, evangelistic; Rev. E. E. Harring, Los Angeles, hospital; S. S. McCahill, San Francisco, citizenship and temperance; Mrs. H. W. Chapman, Berkeley, army and navy.

Three judges spoke to the Endeavorers Saturday afternoon and evening, Judge Benjamin F. Bledsoe, Los Angeles, on a "Victorious Citizen." Judge Curtis D. Wilbur, Los Angeles, who presided as judge in a most interesting mock trial Saturday afternoon, and Judge W. H. Thomas of Santa Ana, on "Victory for the People or the Liquor Traffic."

COOLNESS

There's nothing so cool as an oil stove for summer cooking. All the heat is concentrated on the cooking and not radiated about the kitchen. Cooks everything any wood or coal range will cook, and cooks it better, because of the steady, evenly-distributed heat. Use it all the year 'round—more convenient than a wood or coal stove, and more economical.

The long blue chimneys prevent all smoke and smell. In 1, 2, 3 and 4 burner sizes, with or without ovens, all cabinet models. Ask your dealer today.

STOOD AGAINST WALL, IS SHOT STILL LIVES

Mexican Disturber Tells Tale Of Capture and Shadow of Death By Bullets

Either fiction writers have nothing on Rosalio Montano or he is one on the few men stood up against an adobe wall and shot who lived to tell the tale.

Montano was arrested at Talbert for creating an ordinary kind of a disturbance at a poolroom. On the way to jail he told Under Sheriff Inman that he had been shot in the head and was not always responsible for what he did.

This morning after pleading not guilty to peace disturbance, he was taken to jail awaiting trial on July 13.

"I was a soldier with Carranza and Villa against Huerta," said he. "I was in the advance column when we tried to take Tequila. The enemy did not open fire until we were almost in the town, and our forces were driven away. I and two others who were captured were stood up against a wall and shot. Five soldiers were detailed for each of us, and the whole fifteen men fired at once. But one bullet hit me."

Here Montano pulled back his shirt and showed where the bullet entered in front of his shoulder. A jagged scar was where it came out back of the shoulder.

"After we fell," continued he, "the officer in charge came along with a revolver and put it against my head and pulled the trigger. The bullet went in here and came out here." There is a scar on one side of his forehead and another over the other eye. "They went off and left me for dead, but I was rescued and lived."

Charges Theft
W. B. May, colored, has been porter at the Santa Fe depot at Fullerton, but he is now stopping at the county jail. Recently several suit cases have been rifled at the depot. Yesterday some shoes and other articles were taken, and May was suspected. It is believed May found out that Officer Murillo was on his trail, for when Murillo arrived he found a fire burning. It was a warm day, and a fire looked suspicious. Investigation resulted in the rescue of part of a shoe from the blaze. May was arrested for petty larceny and will be tried by Justice Cox this afternoon.

Buggy Not Found
Juan B. Perez has been arrested on a charge of stealing a buggy at Delhi. Perez has been found, but the buggy is still missing.

AT THE COURTHOUSE JUNE TOPS ALL RECORDS FOR MARRIAGES

May With 163 Set a Record, But Last Month Moved the Notch Up to 166

June is still the month of brides. May tried mightily hard to upset the tradition, but its efforts to take first honors from June were exceedingly short lived.

In May the county clerk's office here sold 163 marriage licenses, and set a new record thereby. June rushed frantically into the fray, and won. The total for June was 166.

May of 1916 had 163 licenses, June 156, July 137, August 156, and September 161, which was the record until May spurred to the lead this year.

Lowlands Deal
A number of documents having to do with the property of the Development Co. of Los Angeles were received Saturday. This property includes what is known as the Snow ranch in the lowlands. In the changes a quarter-section is deeded to D. M. Boyd. Other property of the company is put under trust deeds, 125 acres near Fairview for \$25,000 and 314.50 acres near Fairview for \$50,000.

Divorce Dismissed
The dismissal of the divorce action of Robert Brown against Edith M. Brown has been authorized by Attorney Ames for the plaintiff. Suit was started on May 16.

MORE SARDINES THAN TUNA ARE PACKED NOW

SACRAMENTO, July 2.—Up to the middle of June 60,000,000 pounds of California sardines had been packed by the Southern California canneries, the result of an unprecedented run of sardines, according to announcements from the offices of the state fish and game commission. Last year with a pack of 30,000,000 pounds the tuna industry took the lead in the southland but this year the tuna has been entirely eclipsed by the lowly sardine.

The fish and game commission declares that this is a most opportune time for a run of sardines, with the food question a big one all over the country and adds that the California sardine is a cheaper and just as tasty article of food as his aristocratic French or Norwegian brother.

PROTEST MORE TRACKS ON MARKET STREET

SAN FRANCISCO, June 2.—Declaring that the lives of women and children would be endangered in a jumble of cars if four car tracks are placed on Market street, merchants of the downtown section are preparing to fight the proposal to increase Market street's trackage. The transportation systems propose putting down additional tracks in order to accommodate cars running through the newly completed Twin Peaks tunnel. A lively contest is in prospect.

REDDING-TO-OREGON ROAD WORK TO START

EUREKA, July 2.—Work is to start at once on the Sims-Siskiyou of the state highway system which, when completed, will connect the highway system from Redding to the Oregon line. This is announced from the offices of the Connors-Green Company, which firm has been given the contract for the section at a price of \$141,000.

BRITAIN TO OBSERVE NATIONAL BABY WEEK

LONDON, July 2.—National Baby Week will be celebrated throughout England the first week in July. Over 2000 doctors, mayors, nurses and social workers are planning for a series of lectures in all cities from July 1 to 7. A school of education to provide the necessary speakers has been formed. Perambulator parades will be a feature of the week.

PLAYING CARD PUZZLE UP TO COLONEL FAY

SACRAMENTO, July 2.—Col. Herbert R. Fay, assistant adjutant-general, is scratching his head in an effort to figure out what National Guard officers or branch of the service require playing cards for military efficiency. In a list of property the National Guard can draw from, Colonel Fay discovered playing cards. He at once began to wonder but he hasn't answered the puzzle yet.

MANY VIOLATE BERRY NET CONTAINER ACT

SACRAMENTO, July 2.—Charles G. Johnson, state sealer of weights and measures, reports many convictions in the state through the enforcement of the net container act in the sale of berries. In Los Angeles alone 25 convictions have been obtained and fines totaling \$285 paid by violators.

ATTORNEY LOSES LIFE IN SURF AT NEWPORT BEACH

J. P. Cottrell, Jr., Seized With Cramps, Drowns In Presence of Friends

One man drowned at Newport Beach, near double-drownings at Rocky Point and Huntington Beach, and a sudden death at Seal Beach, were happenings along the Orange county coast yesterday afternoon, as an incident of the big rush to the beaches to escape the heat of the interior.

Thousands of people from all sections of Southern California found comfort at the various Orange county beach resorts, and nearly as many machines passed through Santa Ana as two Sundays ago, when George Peters kept tabs on the number of vehicles passing the corner of First and Main streets. So far as has been reported, there were no serious automobile accidents in the county.

J. P. Cottrell, Jr., a young attorney of Los Angeles, was drowned at Newport Beach a few minutes after 12 o'clock yesterday. He was 25 years of age. His parents reside at Colton. The body was recovered at once. It was brought to this city by Coroner Winbigler. Cottrell graduated from the law department of the University of California two years ago, since which time he has been associated with the law firm of Davis, Kemp & Post, of Los Angeles. He was unmarried.

Cottrell was bathing by himself, no one being in the surf near him at the time. He had just gotten beyond the breakers, when C. S. Ball of Los Angeles heard cries for help. Ball was just preparing to go in bathing, and with George and Robert Gerwing of this city and others rushed to the assistance of the young man. Cottrell is supposed to have been seized with cramps.

He disappeared before the rescuers could reach him. Robert Gerwing found the body on the bed of the ocean in about ten feet of water and saved it from being carried out into the ocean.

Efforts to resuscitate him with the aid of the pulmotor, which had to be rushed by automobile from Balboa, proved fruitless. The drowning took place between twenty-eighth and twenty-ninth streets, immediately in front of the Ball cottage.

Cottrell went to Newport Beach yesterday morning in company with Sloan Plack of Los Angeles, who has a cottage at the beach. There was only one bathing suit in the cottage and it was arranged that Cottrell should go in bathing first.

An inquest was held yesterday afternoon, and the verdict of the jury was that the deceased had been accidentally drowned.

The body was taken to Colton today.

FATHER AND SON ARE THREATENED BY TIDE-RIP

A tide-rip at Huntington Beach came near causing the death of J. F. Kent and his son Clarence, aged 11, yesterday afternoon. They were dragged out of the water exhausted.

Kent, who lives at the corner of Acacia and Fourth streets, Garden Grove, and L. J. Robinson, also of Garden Grove, and their families were at the beach. Kent and his son and Robinson and his son, Wallace, were in bathing. Clarence went ashore for a rest. He then endeavored to return to his father. He was caught by a current that took him ashore.

Wallace Robinson heard Clarence cry out for help. Kent and Robinson, Sr. went ashore as rapidly as possible and ran along the beach until they reached a point opposite the exhausted boy swimmer. The father reached Clarence, and got him on his back, and tried to swim ashore, but was unable to do so.

Two men with a rope arrived, and they carried the rope out to Kent, who was dragged ashore with the boy clinging to him. Both father and son were exhausted. Kent was nearly choked by his son's arms, which had been clasped about his father's neck.

A NEAR TRAGEDY AT MOUTH OF NEWPORT BAY YESTERDAY

Several lives were endangered yesterday at the mouth of Newport Bay as the result of the upsetting of a boat occupied by two young men and a girl. The names of the parties could not be learned.

The boat was caught in the strong current and carried over the bar into the ocean. Noticing their plight before the boat upset Attorney Narlian and brother of Los Angeles started to their rescue. Before they reached the boat it was upset and the three were thrown into the water. One of the Narlians attempted to rescue the woman and she fought him so hard that he had to abandon his efforts. By this time P. H. L. Wilson had arrived on the scene in the fast bay boat, the Campbell. He picked up all the party. The two men and woman were taken to the Wilson home and given dry clothing, which they later returned unknown to the Wilsons. They would not give their names.

WOMEN AND CHILDREN ARE SAVED FROM FIRE

LOS ANGELES, July 2.—Rescued from the blazing building just as the flaming timbers of the upper floor crashed through the ceiling, two women and two children were saved from death by Val Le Sieur and H. A. Hans by early today.

The two men were passing in their automobile through Grand View street when they saw the house in flames. They rushed upon the porch and broke through the door. Asleep in a bedroom downstairs they found the four people, oblivious to the fire above them. They carried them to safety just as the roof fell in.

SELECTION OF U. S. ARMIES TO BE MADE WITHIN TWO WEEKS

(CONTINUED FROM PAGE 11)

cision is final. When it is adverse the man will be drafted into the army.

After all appeals are decided and occupational claims are settled, the district board will report its list of eligibles to the adjutant general of the state. These are the men that are to be summoned to the colors in the fall. They will be notified by mail.

Appeal Provided For
An appeal from the district board in occupational claims to the President is provided for. But, pending the decision of the appeal, the claimant may be summoned to the army.

In a later proclamation President Wilson will create a national board to hear the occupational appeals.

The regulations give the President authority to determine from time to time what general classes of industries are necessary to maintenance of the military establishment. These classes will be announced by proclamation. The district boards are ordered to ascertain the existing conditions of industry in their districts to aid in making equitable exemptions.

Another proclamation to follow within a few days will make the laws governing the final stop of the draft— assembling the men and calling them into camps.

Board Majority Rules
On any disputed decision of the boards a majority rules. Members are barred from taking part in any hearing that concerns any relative closer than a second cousin.

In case of doubt in physical examinations as to whether the man is unfit, the government is given the benefit of the doubt and the man is certified as "unfit."

To guard against partiality, every case of an exemption by a lower board is appealed automatically to the upper tribunal. Unless new evidence is presented after a short time, the higher board will affirm the decision. This method gives the public in general an opportunity to present evidence favoring or opposing the decision.

Heavy penalties are imposed for making false statements or any evasion of the requirements of the regulations. Imprisonment for not more than one year without the alternative of a fine, is provided for evasion.

WAR CHANGES STUDY PREFERENCES AT U. C.

BERKELEY, July 2.—War has changed the preference of the studiously inclined from Greek, Latin, history and the academic subjects to dietetics, food conservation, first aid, home nursing, cooking and sewing.

That is the word which goes forth from the University of California summer session. The hundreds of students attending the summer school this year are turning their attention to the immediately useful and allowing their education in the less practical—albeit commendable—subjects, to await the day when their country has less need for practical talents.

But the change in the preference for courses is about the only change noticeable. The attendance is practically as heavy as ever and throughout the coming week additional enrollments are expected to swell the present figures noticeably.

URGES COUNTIES TO CURB GRAIN FIRES

SACRAMENTO, July 2.—As part of the campaign to protect the grain fields from fire, the state council of defense is urging the other counties of California to follow the example of Solano county where the supervisors voted \$2,500 for use in protecting the grain.

Thirteen fire stations have been established throughout the grain growing districts and each station is equipped with an auto trailer on which there are ten fire extinguishers, five ten-gallon cans of water, shovels, wire brooms and other field fire fighting apparatus.

In each district automobile owners have pledged the use of their machines in rushing the trailers to any place where a fire breaks out. There is also a volunteer force of 20 farmers for each trailer.

Will make thrilling dive through the air in flaming gasoline.
Come to Newport For An Enjoyable Fourth.

ATTEMPT TO KILL FOOD BILL BY 'LOADING'

WASHINGTON, July 2.—The Senate will be in continuous session until after the Fourth, if the advocates of the administration food control bill carry out their intention as indicated today.

This decision was reached this afternoon when it developed that there was concentrated effort to load down the bill on the Senate. Amendment after amendment was adopted.

Senator Chamberlain tried to check the avalanche by pleading that the bill already was too broad in scope.

"God help you, if you proceed in this course," he shouted. "If you are for it, vote for it, if you are not, don't try to kill it by subterfuge."

By amendments adopted, the bill controls all wearing apparel, including shoes, if the bill is adopted finally with the amendments included. One amendment included control of cotton and its products, while another included wool, skins, hides and their products.

Wine, Beer, Up to Wilson

The Senate Agriculture committee today by a vote of 8 to 3, decided to put up to the President the decision whether beers and wines shall be produced after whiskey distillation has been stopped by Congress.

JURIST LEARNS NEW POULTRY TRADE TRICK

SAN FRANCISCO, July 2.—Judge Dunne, of the San Francisco superior court, is learning some things worth while at Santa Rosa this week. At the Sonoma county seat he is presiding in the court which Judge Seawell left unoccupied when he came to San Francisco to sit in the trial of Mrs. Rena Mooney.

The other day a chicken raiser was giving testimony, telling how he conducted his business. The judge listened attentively.

"When I buy chickens I pick out the good ones and keep them and ship the poor ones to San Francisco," testified the witness.

"Is that so," snapped the judge. "I'll remember that."

CHECK THAT COLD QUICK
As every cough or sneeze distributes millions of germs, we only need a draft, chill or fatigue to lower the body's resistance and start a cold. At the first sign, take Dr. Bell's Pine Tar-Honey and don't let a "summer cold" become deep seated. The pleasant balsam qualities in Dr. Bell's Pine Tar-Honey cut the phlegm, relieve congestion and allay inflammation. Children like it; used with success by singers and public speakers. 25c at your druggist's.

COWGIRLS THRILL AT SAN JOSE'S ROUND-UP

SAN JOSE, June 2.—An unusual array of cowgirls, not to mention cowboys, regaled visitors to the California Roundup here today with a thrilling program. It was the second day of San Jose's annual Roundup, which opened yesterday.
